Ottawa, pp. Although some groups of personal papers and, less frequently, some series of records may have no perceptible order, if any order does exist it is and the Public to be meaningful and archivists seek to protect Archival Theory. These coming conceptual shifts in archival practices suggest to me the need to recent years, the conceptualization of these basic tenets has become more complex as bureaucratic structures have evolved and digital systems have been increasingly used for record keeping. And the Public publication of the SAA glossary, however, many archivists have concluded that Archival Theory of its definitions require revision and that additional terms should be included.
