### **Science: Not just for scientists | Science | The Guardian**

Twenty years later, I'm a scientist (with a job–take that, engineering dean), but I still have no idea where to draw the line between science and.

### **No black scientist has ever won a Nobel – that's bad for science, and bad for society**

No-one should feel the need to apologise for not being a scientist. And yet when I tell people I work for the British Science Association (BSA).

## Not 'clever enough' to be a scientist? Nonsense. | Feature | Education in Chemistry

In a world where scientific knowledge might be useful in guiding decisions we make individually and collectively, one reason non-scientists might want to listen .

### Who is allowed to call themselves a scientist? - Science Riot

Not all scientists wear white coats and work in labs. The Science Council has identified 10 types of scientist working today. Which one are you?.
